

iwata Revolution

Quality, Performance and Value

REVOLUTION MINI LINE Series

The Revolution **MINI** Series features break through technology and top-of-the-line performance at great value. The **MINI** Series will become a significant tool for progressive Beauty Professional, Temporary Tattoo artist, RC enthusiasts and Model Builders.

Because of the great handling performance and short end handle of this NEW series, this airbrush is perfect. And great for jobs that are too small for a regular Airbrush.

The HP-M Revolution are action gravity feed airbrushes with flow control at the back of airbrush by just twisting. Also feature Teflon needle packing for use with solvent based paints.

The **MINI** Series is great for the temporary tattoo artist, beauty professional, Nail artists and model builders.

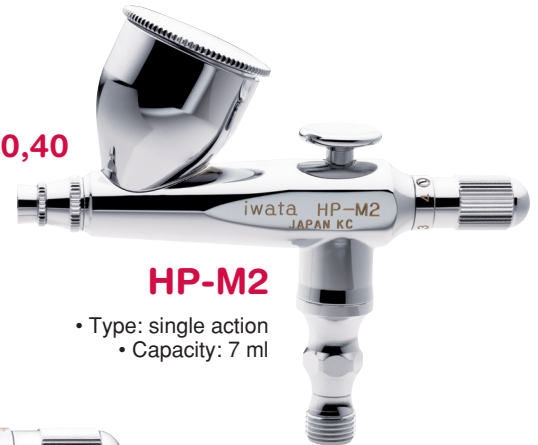

Ø 0,30
